AHMED REDA

Frontend Developer | React & Next.js

+20 106 287 5403 · alarawy9@gmail.com · Egypt, Mansoura

Portfolio · GitHub · LinkedIn

SUMMARY

Frontend Developer specializing in React, Next.js, and TypeScript, focused on building responsive, accessible, and maintainable web applications. Experienced in component-based architecture, state management, REST API integration, and multilingual interfaces with Arabic RTL support. Passionate about delivering polished user experiences and performant web applications.

PROJECTS

Expensra (Graduation project) Live Demo | GitHub

- Developed a personal finance management platform with web and mobile applications for expense tracking, budgeting, savings goals, and financial analytics.
- Built reusable React components and integrated REST APIs to support core financial workflows.
- Implemented data fetching, form validation, and multilingual interfaces with Arabic RTL support.
- Contributed to AI-powered features for financial assistance, available in the mobile application.

Hotel Hives (Admin dashboard) Live Demo | GitHub

- Built a desktop-based hotel management dashboard for rooms, guests, and reservations.
- Implemented server state management and API data fetching using React Query with Supabase.
- Developed analytics dashboard with charts using Recharts.
